

Use Feedback and Bug Report in our modules

We are open to any feedback related to our modules, in case of bugs or help don't hesitate to contact us.

To make this even easier we add Feedback | Bug Report | Newsletter tabs to our modules.

Feedback

Below the feedback tab you can give us a feedback about our work (we really like to hear few good words) or write down your idea / request and if we think its good we'll consider to implement into future versions.

By clicking to the "SEND" button you agree that we will get some basic information.
